New England Otolaryngological Society

Friday, December 4, 2015
The Starr Center at Schepens Eye Research Institute
Charles River Plaza, 185 Cambridge St, 2nd Floor, Boston, MA 02114

"Otolaryngologic Manifestations of Rheumatologic Diagnoses"

7:30-7:55 am  Registration

7:55-8:00  Welcome – Richard O. Wein, MD, FACS, NEOS President

8:00-8:15  MEEI – Matthew Naunheim, MD
Acute and Chronic Laryngeal Manifestations of Rheumatoid Arthritis

8:15-8:30  Boston University – Jacob Kuperstock, MD
Granulomatosis with Polyangiitis: If and When to Operate

8:30-9:15  Robert Kalish, MD, Tufts Medical Center, Boston
Demystifying Rheumatologic Diseases and Serologies

9:15-9:30  Dartmouth – Marc Polacco, MD
Relapsing Polychondritis: Concerns for the Pediatric Patient

9:30-9:45  Break

9:45-10:00  University of Connecticut – Marissa Schwartz, MD
Pemphigus of the Upper Aerodigestive Tract

10:00-10:45  Douglas Mathisen, MD, Massachusetts General Hospital, Boston
Idiopathic Tracheal Stenosis

10:45-11:30  Timothy Doerr, MD, FACS, University of Rochester School of Medicine and Dentistry
Facial Plastic Surgery with Rheumatologic Disorders

11:30-11:45  Questions

11:45-12:00  Tufts University – Ameer Shah, MD
Laryngotracheal Sclerosis: A Rare Cause of an Uncommon Disease

12:00-1:15  Lunch (not included)

1:15-1:30  Annual Membership Meeting

1:30-2:15  Eric Holbrook, MD, Massachusetts Eye and Ear Infirmary
Nasal/Sinus Manifestations of Rheumatologic Diseases

2:15-2:30  Albany Medical College – Tiffany Chen, MD
Scleroderma of the Head and Neck: A Paraneoplastic Disease?

2:30-2:45  University of Vermont – Nathan Grohmann, MD
Laryngeal Manifestation of Relapsing Polychondritis

2:45-3:00  Yale University – Jared Langerman, MD
Rheumatoid Arthritis: Why it Matters to an Otolaryngologist

3:00-3:15  Concluding Remarks and Awards
Program Objectives
1. Identify symptoms and physical exam findings on routine exam that may point to a need to Rheumatology consultation and understand the basics of assessment with serologic tests
2. Acknowledge the potential complications selected patients may experience with specific rheumatologic diagnoses that could require the consultation and intervention of an Otolaryngologist
3. Understand the new medications that are being used with this patient population and appreciate potential side effects that may occur and require otolaryngology consultation

Program Overview
The current program is designed to provide the practicing Otolaryngologist with an update on the current diagnosis and treatment of the most common rheumatologic diagnoses that one may encounter daily while also focusing on site specific issues that may require surgical intervention or consideration for subspecialty consultation. The evolving field of Rheumatology and the development of new targeted therapies have resulted in a patient population where multidisciplinary co-management of patients has become even more critical in an effort to provide successful long-term results with care. Focus of the surgical management of tracheal stenosis and the sinonasal and facial/plastic implications of advanced rheumatologic disease will provide a forum to discuss various approaches, successful and unsuccessful, that have utilized in this population.

AMA Credit Designation Statement
The New England Otolaryngological Society designates this live activity for a maximum of 5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Accreditation Statement
The New England Otolaryngological Society is accredited by the Massachusetts Medical Society to provide continuing medical education for physicians.
